WEBB BROTHERS.

A Bad Marksman.

Tom Hudson, colored, languishes in the county jail under a charge of assault with intent to murder, alleged to have been committed Tuesday night, upon the person of John Matthews, colored. Matthews is porter of a passenger train, and was taking a lay-off in Bryan. It is alleged that Hudson met Matthews on the street in the northern part of town, in company of a woman. Hudson accosted him about loitering by the tender side of that particular damsel, and not waiting for explanation, began at once to burn powder—shooting twice, so it is said, but taking poor aim, as both shots missed. It is said that the new coon in town burned the wind.

Father Brannan Last Night.

A fair sized and intelligent audience greeted Father Brannan last night at St. Joseph's church, when he preached the initial sermon of his series of dis. courses. The subject was Confession, and the discourse was mainly polemic. Father Brannan's mission here seems to be mainly to dispel certain wrong ideas as to the tenets and teachings of the Catholic church, and to defend certain of those tenets from criticisms. He is a forcible and interesting speaker. The subject to-night is Confession Confession continued.

People of Chicago Against the Proposed Humphrey Bill.

Chicago, April 21.—Five thousand Chicagoans who are opposed to the Humphrey bills, which extends for fifty years the franchise of the street railways in Chicago and which are now on passage in the Illinois legislature, packed Battery "D" Tuesday night. For two hours the assemblage was addressed by earnest speakers, among whom were ex-Governor Altgeld and Alderman John M. Harlan, recent independent candidate for mayor of Chicago.

A resolution was passed as follows:

"Be it resolved by the citizens of Chicago in mass meeting assembled, that every representative and senator from Cook county who votes for the Humphrey bills is a public enemy, and that he be treated as a traitor to his constituents in his public and private life and that his name be Judas, for that he has sold his master, the people, for a few pieces of money and that the price of his treason be spent together with the remainder of his blasted life, apart from the constituency that he has buried and that, although respect for law may prevent the personal violence."

W. F. JOSEPH KILLED.

A Young Man Strikes Him a Fatal Blow in a Fight.

Montgomery, Ala., April 21.—W. F. Joseph, president of the State Insurance Men's association, was killed here.

The association held a meeting here last Friday, and Mr. Joseph, it is said, with some visiting companions, took a car ride after a banquet. Becoming boisterous, Malcolm Hall, a young man, who was with several ladies in the car, reminded Mr. Joseph of their presence, but the swearing continued. Hall had Joseph indicted for swearing before ladies and yesterday afternoon Joseph was fined for the offense. As he left the courthouse, he cursed Hall, who struck him heavily in the face. Joseph fell and was taken to his residence. Paralysis, to which he was subject, came on as a result of the blow, and he died at midnight.

TODD'S RACE SHORT.

Withdraws From the Senatorial Contest at the Very Beginning.

Frankfort, Ky., April 21.—Mayor George D. Todd, of Louisville, who Tuesday night announced he was a candidate to succeed Dr. Hunter as Republican nominee for United States senator, has already withdrawn.

Mayor Todd's withdrawal from the race, it is said, is due mainly to the fact that the friends of Senator Deboe assured Dr. Hunter his future political death if he violated pledges of support he had given to Deboe, as it was understood Mr. Todd entered the race with the support of Dr. Hunter.

The race for nomination is now regarded betwen St. John, Boyle, Senator Deboe and Judge W. H. Holt.

The ballot stood: Hunter 50, Blackburn 41, Martin 12, Boyle 6, Stone 1. Necessary to a choice.

GREEKS TAKE DAMASI.

A Desperate Battle With Turks Over the Place.

THE TOWN WAS BURNED.

Greeks Were Successful After Pushing the Turks Back Several Times. Other Engagements Between Troops of the Countries.

Athens, April 21.—News has reached here that the Greeks, after a desperate battle, have captured and burned Damasi. Vigilia is still resisting.

Another division of the Greek troops it is reported, has traversed the Revenl pass and captured three block houses. The division has almost reached Damasi, where it will effect a union with the forces that captured the town. The 20,000 troops under Gen. Smolenitz displayed the greatest bravery. Revenl lies twelve miles northwest of Larissa.

Edhem Pasha, with a force variously estimated at from 10,000 to 14,000 troops, led seven assaults against it, but all were repulsed by the Greeks.

In Athens greater attention is paid to the operations in the neighborhood of Revenl than to those at Milouna Pass. The theory all along has been that if the Greeks could establish themselves at Damasi their road would lie open to Elassona.

The situation at Tyrnavo is somewhat in doubt. The news from that point is conflicting, but there is no confirmation of the rumor that the place has been captured by the Turks. What seems to have happened is that Tyrnavo was evacuated in order to send troops forward to Revenl, and then reoccupied by the troops returning from Milouna.

The news of the capture of Damasi puts a new complexion upon the situation on the frontier, is a great encouragement to the government and is likely to have the most exhilarating effect on the spirits of the Greeks, who had been greatly depressed by the reverse of their troops at Milouna Pass.

This success and the fact that the fall of Prevesa seems imminent virtually offsets the calamity at Milouna If the Greek divisions effect a union at Damasi, as is expected, there is almost nothing in the way of their prompt advance to Elassona.

If Tyrnavo falls into the hands of Edhem Pasha and the Turkish troops sweep down upon the plain and advance to Larissa to meet the force concentrated there under the crown prince they will be between two grand divisions of the Greek army. This seems to have been the object of the Greek strategy.

Should the Greeks succeed in relieving the forts at Prevesa, as now seems probable, and in occupying the town with the large land force co-operating with the bombarding warships the road to Janina would be open and the Turkish troops in Epirus placed at the most serious disadvantage. The strategetic value of Prevesa to the Turkish division in Albania is that so long as it remains in the hands of the Turks it makes possible a steady line of munitions and food supplies.

With Prevesa in the hands of the Greeks this line would be promptly cut and it would be practically impossible to revictual the Turkish troops by the long land route through Macedonia. On the other hand, the Greek troops could be revictualed by sea.

Headquarters of the Greek Army in Thessaly, Larissa, April 20.—The mayor of Larissa has issued a proclamation calling upon all the citizens to arm themselves in defense of the country. Every step possible is being taken to defend this place against the Turks, who are reported to have captured Tyrnavo, ten miles from here, and to be pushing on to Larissa. The minister of the interior has issued orders to the prefects throughout the country calling upon them to summon all citizens to arms in defense of Greece, now invaded by the Turks.

It is reported that the Greeks captured 200 Turkish prisoners at Vigilia.

Will Help the Greeks.

Rome, April 21.—Riccotti Garibaldi, a son of the famous general, Garibaldi, accompanied by the Garibaldian veteran, Col. Gatterno, has sailed for Greece, where he will take part in the war against the Turks.

Steamers at various places along the Italian coasts are embarking men who volunteered their services to Greece for war.

Destroyed a Fort.

Athens, April 21.—Col. Manos in command of the Greek army, operating against the Turks in Epirus, telegraphs he destroyed Imaret fort, and advanced without opposition to Filliplada, which place the Turks abandoned after burning it. Col Manos hoisted a Greke flag over Filliplada.

Message From Constantinople.

Washington, April 21.—The Turkish legation has received an official dispatch sent from Constantinople early this morning as follows:

"The village of Krietchora has been occupied by imperial troops. The division of Nechad Pasha fought until half past eleven last evening and took possession of all points commanding the plains of Larissa except a hillock, which, owing to the advanced hour, remained in the hands of the Greeks, but this point is also surrounded from three sides and exposed to the fire of Turkish guns, and cannot but fall soon into the power of the Turkish army. In these quarters and at Badji 12 prisoners and a great quantity of munition of war was taken. The Greeks defeated at Milouna Pass fled to Larissa."

Bombarding Platemona.

Athens, April 21.—It is reported here that the eastern squadron of the Greek fleet is bombarding Platemona, on the west side of the Gulf of Salonica.

Turks Captured Larissa.

Salonica, April 21.—It is rumored here that Turks have captured Larissa.

A Revolution Feared.

London, April 21.—The Rome correspondent of the Pall Mall Zazette telegraphed to his paper saying a dispatch was received there from Athens expressing fear that should the Greeks suffer further reverses and the Turks occupy Larissa, a revolution will break out at Athens.

Greeks Ready to Return.

Chicago, April 21.—About 1200 Greeks at a mass meeting here resolved to do all they could to aid their country in the war with Turkey. Amid great enthusiasm they promised to be ready to start for New York tomorrow afternoon. From all sources came help to pay the passage of the volunteers, over $3,000 being raised.

TWO ELECTROCUTIONS.

William Haas and William Wiley Put to Death in Ohio.

Columbus, O., April 21.—The first electrocutions in Ohio took place shortly after midnight last night in the annex of the Ohio penitentiary. The criminals were William Haas and William Wiley, both of Cincinnati.

The electrocution chair and appliances are similar to those used in New York.

Haas was the first to be electrocuted. He was strapped in the chair at 12:27. When he was brought into the electrocution room he closely scrutinized the chair and was pushed into it. The current, three times in succession. As soon as the body of Haas was taken out of the chair Wiley was brought in and at 12:35 he was strapped into the chair. Both electrocutions were entirely successful.

The condemned men were nervy to the last.

Haas was electrocuted for the murder of Mrs. William Brader in 1886.

Wiley murdered his wife on the west side of Cincinnati twenty days after Haas committed his crime.

Confederate Monument Unveiling.

Dallas, April 21.—It has been decided by the Daughters of the Confederacy that Jefferson Davis should unveil the statue of President Jefferson Davis. Lucy Hayes that of Gen. R. E. Lee, the eldest of Stonewall Jackson's grandchildren to unveil the statue of Gen. Albert Sidney Johnston, and the youngest grandchild to pull the cord that would unveil the form of Stonewall Jackson.

Everything seems to be progressing satisfactorily and a letter from the contractor to Mrs. Currie said that he had everything ready for shipment and that he would have the monument all completed three or four days before the unveiling.

The Daughters extend a cordial invitation for all who possibly can to attend the reception that will be tendered to Mrs. Hayes, daughter of President Davis, and Mrs. Stonewall Jackson at the Oriental hotel on the evening of the 28th instant.

The reception and ball are on the evening of the 28th instant, and the unveiling takes place on the 29th.

Will Close on Sundays.

Tyler, Tex., April 21.—A meeting of the directors of the Fruit palace was held and it was decided not to open the palace on Sundays. The pastors' conference of this city adopted a resolution, commending the directors for their action in the matter and promising their patronage and support to the fair this year.

Last year a petition signed by the conference to the management, asking that the doors of the palace be kept closed on Sundays, was disregarded and of the two weeks of the fair not a member of the conference was present, although they were presented with free tickets. The band last year on Sundays gave two concerts in the afternoon and night of sacred music.

Closed Down Indefinitely.

Globe, A. T., April 21.—The Old Dominion copper mine and smelter has closed down indefinitely. No reason is assigned. Upwards of 300 men are thrown out of employment. The mines are in splendid condition, with an abundance of ore and a large supply of coke on hand.

Fire Chiefs' Association.

Kansas City, April 21.—The twenty-sixth annual convention of the National Fire Chiefs association will be held in New Haven, Conn., during the third week in August next.

County Court.

The case of the State of Texas vs Charles Rudolph, for theft of $4 resulted in acquittal.

The case against Rev. Crenshaw, for refusal to work the road, resulted in a hung jury and a mistrial. This case has now been tried three times. Originating in the justice court, it was carried to the district court on a habeas corpus writ, and a new hearing obtained in the county court. This having been tried and resulted in mistrial, it will now have another hearing, and will likely become notorious in the history of jurisprudence of Brazos county.
